

Rocket® IPC is indicated for

- palliation of dyspnoea due to pleural effusion.
- pleurodesis as a treatment for pleural effusion

Rocket® IPC offers an alternative long term method of managing pleural drainage, allowing patients to be managed in the community which offers significant advantages:

- Early discharge
- Minimised repeat admission.
- Improved quality of life
- Improved control over discomfort and breathlessness
- Reduced cost

The system features:

UNIQUE FLOW CONTROL:

- Gives patient or carer total control over fluid flow, significantly reducing discomfort during drainage.
- Reduces risk of accidental vacuum release prior to catheter connection.

SAFETY VALVE WITH UNIQUE LOCKING SYSTEM:

- Prevents leakage of air or fluid.
- Prevents accidental disconnection during drainage.
- Prevents accidental loss of valve caps, minimising contamination.

600ml and 1000ml drainage bottle sizes available on FP10
(Please prescribe in 5's).

NHS
